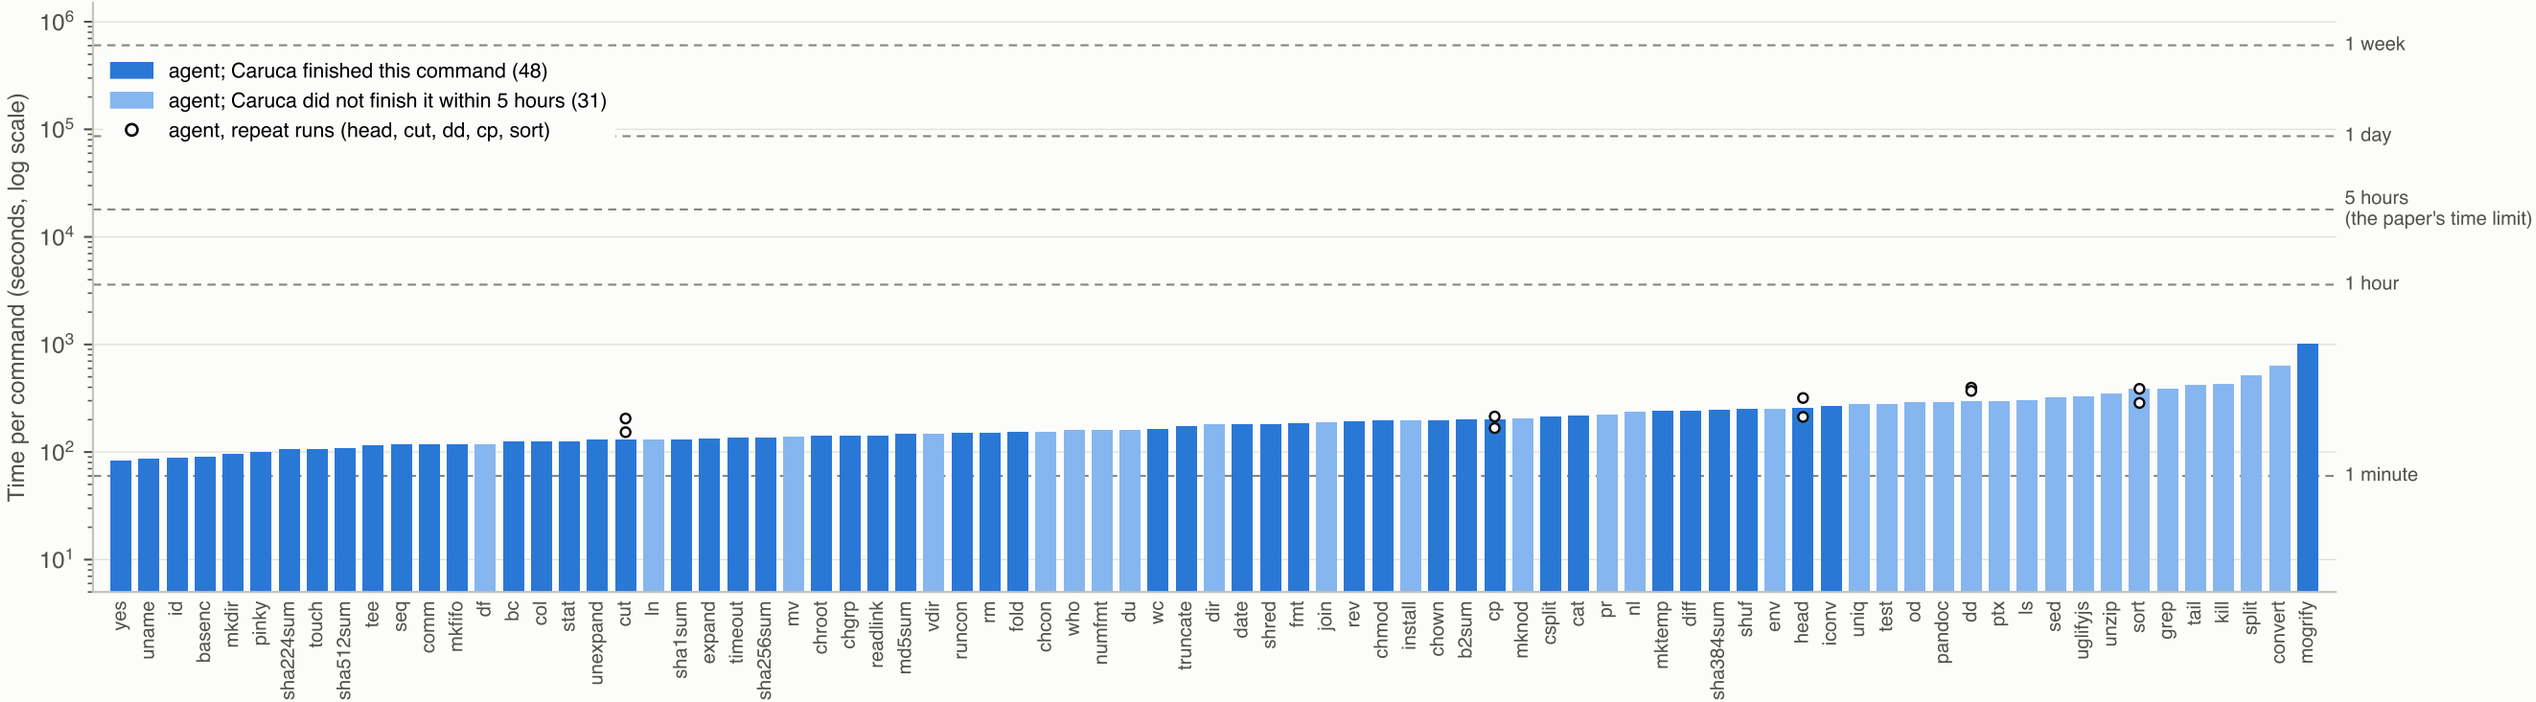
Fig. 7 redrawn with the naive agent's times: every command took between 83 seconds and 17 minutes


The paper's 79 commands on its axis and limit lines, sorted by the agent's time as Fig. 7 is sorted by Caruca's. One Claude Code session per command (Fable 5.1, medium effort) in a Lima VM on an Apple M5 Pro Mac, 2026-10-28; the time is the whole session. Rank agreement with Caruca's order: 0.55 (1 = same order).
